Very Important Information

Would you like to search for a test center located on a military base? To gain access to on-base military test centers, you must have a valid government ID **and** authorization to enter the base. Civilians without valid government ID **and** authorization to enter the base will be turned away by the testing center and/or military gate security. Your exam will be recorded as a 'No Show', and you will not receive a refund for your missed exam.

*By accessing this page and checking the box, you confirm that you have a valid government ID authorizing access to the base where you are booking your exam.

Yes, I have access to the base

No, I do not have access to the base

Agree to policies

Please note that your "appointment length" may include time for non-scored sections such as surveys or tutorials. The appointment length does not necessarily reflect the total amount of time allotted for the actual exam. The majority of Cisco exam appointments include an additional 15 to 20 minutes for surveys and tutorials.

Once passed, a candidate must wait a minimum of 180 days before taking the same exam with an identical exam number. Candidates may only take a test exam once. Candidates who fail an exam must wait a period of five (5) calendar days, beginning the day after the failed attempt, to retake the exam. For example, if a candidate tests on Tuesday, he or she may test again no sooner than the following Monday. For more information on Cisco's exam policies, visit: www.cisco.com/go/cert/examinations/policies.html.

As a Cisco test taker, you deserve a fair and secure testing experience. Please report any suspicious behavior that you observe to [Cisco Certification Exam Security Customer Portal](#). Examples of such behavior include receiving help or copying from another test taker, taking a test for someone else, copying or disclosing exam content, or using notes or unauthorized aids. Thank you for your assistance in helping to prevent and detect unfair test practices.

Age Requirements and Policies Concerning Minors

Minors are individuals between 13-17 years of age who, with parental or legal guardian consent, may take tests and if passed, receive certification. For any person participating in a location that requires by law a lower minimum age for entry into such programs, then the minimum age limit for that person will be the stated minimum required age. Cisco reserves the right to impose additional restrictions to comply with local data protection laws.
